## Summary

My technical skills along with my education and working experience make me the developer I am. Technical skills were learned from the University of Washington's Full Stack Coding Bootcamp. My education comes from my time at Colorado State University studying engineering for the first two years and philosophy for the last two. These combine to optimize my logical, critical and independent thinking. My working experience has taught me about leadership, teamwork and accountability working with a large variety of people in various positions.

#### **Technical skills**

Languages: HTML, CSS, JavaScript Tools: Bootstrap, JQuery, Node JS

## **Projects**

Pub-Lish | github.com/LauraGwendolynBurch/Pub-Lish | lauragwendolynburch.github.io/Pub-Lish/
